

Hi Bichon lovers,

One of our newest volunteers, who is a foster mom, trainer for our pups needing some obedience, and a doggie chauffeur, is also helping us in our newest fundraising effort.

Michelle works with The Body Shop (you know, the company with the wonderful bath and beauty products)- and has offered to help us raise money for our Fur Babies while allowing us to indulge ourselves (and the people on our gift lists.) The Body Shop products are natural and earth friendly and NEVER tested on animals.

There are many product lines offered, from Body Shop's famous Body Butters, hair care, make up, bath and shower gels, to wonderful products for at home pedicures. The Mango Body Butter not only smells fabulous, it is a natural insect repellant. If you like fun and fruity, you might try the Strawberry or Satsuma lines; for a more mild scent, try the new Almond line, or the popular Shea Butter.

And here's the best part - 25% of all sales will go directly to Bichon FurKids!! This will help us pay for grooming, medical care, and all the other expenses we incur taking care of these little ones. Please click on the link below - and make sure that, when you enter the site it has Michelle Durrant's name at the top - so that Bichon FurKids gets credit. This fundraiser will be from today, until March 31st, so please stock up!!!

Thanks for supporting Bichon Fur Kids - and enjoy your Body Shop products!!!
Marti
